~ Keeping Colorado Orchard Country ~

~ Montezuma Orchard Restoration Project (MORP) works to preserve Colorado's fruit growing heritage and restore an orchard culture and economy to the southwestern region. ~

website: www.montezumaorchard.org

email: morp@montezumaorchard.org

address: POB 1556, Cortez, CO 81321

phone: (970) 565-3099

Follow us on [FB](#) and [Instagram](#)

MORP is a program of Onward! A Legacy Foundation

*Sustain-a-Tree at the
Historic Gold Medal Orchard
in McElmo Canyon, CO*

~ **Business Sustain-a-Tree Members** ~

We thank all the businesses featured in this calendar whose generous sponsorship of \$300 or more helps provide the roots and stability to MORP's program work of Preservation, Education & Outreach, and Orchard Culture & Economy. Both business and individual sustaining members will have their name/business placed on a heritage apple tree sign at the historic Gold Medal Orchard. MORP will share the variety name of your sponsored tree with you. See our website for more info.

~ **Individual Sustain-a-Tree Members** ~

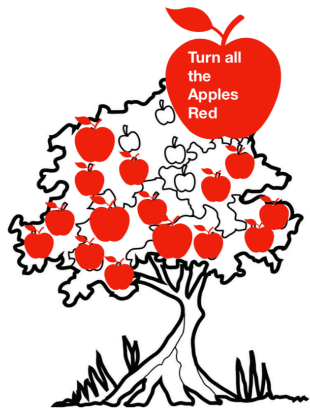

When you become a Sustain-a-Tree member, you join a dedicated group of people reaching out each month to preserve Colorado's fruit growing heritage.

Together you are the sustaining-core keeping Colorado orchard country. We invite you to join this special group by making a sustaining monthly donation of \$10 or more. See the donate button and Sustain-A-Tree page at MORP website.

We thank you.

Your Donation Saves Lost Apples

Over the past year, **MORP has made great strides to raise the capital needed** to purchase historic

orchard property - a place to grow and conserve Colorado's unique apple diversity into the future while acquiring juicing infrastructure to grow our region's orchard culture and economy. Now that our **goal is within reach, we need your help** to turn all the **apples red** on the fundraising tree. Please make a generous donation to **both** our programs and capital campaign. Thank you, your donation saves lost apples.

Historic Jasper Hall Orchard Site. The 1937 aerial photo shows that this land was once filled with fruit trees. Help MORP turn it back into orchard ground ~ a place to preserve Colorado's rare and endangered apples.
