

WANTED ALIVE!

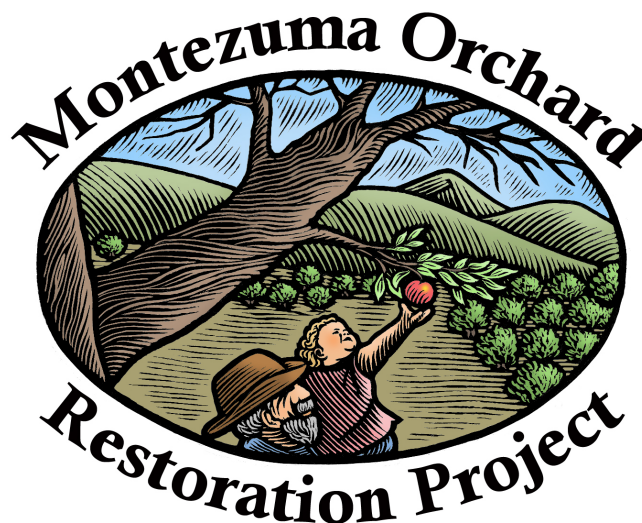

STRIPED SWEET PIPPIN

Also known as McAfee, plus at least 32 other synonyms, see book Old Southern Apples by Lee Calhoun.

LAST SEEN at the Montezuma County Fair, Cortez, CO in the year 1909; winner of top premiums. Grown by J.D. Hall, & McElmo Orchard Co.

Fruit medium to large, roundish oblate, slightly conical; skin yellow, mostly covered with light & dark red, often with a thin bloom making the apple look gray, some russet; dots few, gray, some areole; stem medium in a large, open, deep, often russeted cavity; calyx closed; basin shallow; flesh yellowish, juicy, rather course, crisp, mild subacid inclining to sweet.

If you have any information about the whereabouts of this apple contact Montezuma Orchard Restoration Project . (970) 565-3099 letitgrow@q.com
